

# Logistics Information Technology Summit

## Logistics Modernization

By

Col Mike Loudy  
AC/S Logistics (G-4)

# Logistics Facts & Challenges

- “Logistics Support of SOF units is the responsibility of their Service, except where otherwise provided for by support agreements or other directives.”
- Special Operations peculiar equipment support is a SOCOM responsibility.
- MARSOC organic logistics/CSS capabilities are limited. Not designed, organized or equipped to provide CSS and/or sustainment to deployed forces.
- MARSOC receives garrison logistics support beyond organic level of capability from local MLG.
- MARSOC receives deployed CSS from MEU while embarked, or presently with “ad hoc” arrangements with other SOF units in area of operations.

# Current Initiatives

- **MCCDC CSS study**
  - Seeking Marine Corps solution for MARSOC CSS
  - Capability needs based on deployed MSOC
  - Final report due July 2008
- **NLI Implementation**
  - PMO & CRIF to support deploying MARSOF ashore
  - Target MSOC H as test bed
- **ERDT**
  - East and West coast rep in place
- **RFID**
  - 5 PDKs on hand; 6 more on order
-

# Future Initiatives

- **Implementation of TCPT being considered**
  - Establishment of the LOG OA
  - Initiate MDDP planning
- **Maintenance Contract Support Team**
  - Both garrison and deployed
- **GCSS-MC:** MARSOC tied to supporting SMU implementation schedule
- **Coordination of asset visibility for SOCOM**
- **Coordination/collaboration of joint logistics needs/capabilities among SOF components**
- **IUID implementation**
